The case system.
For the highest demands.
SICHER SEIT 1827.

CimCase

The sophisticated case system for the highest professional demands.

Premium material for professional use
With a high-end ratio of 60 % PC/40 % ABS, the CimCase is particularly robust and durable. Developed for daily use on construction sites, all tool cases offer very high impact resistance and rigidity, making them particularly break-proof and dimensionally stable.

Tested for tough everyday use
The CimCase case series has undergone extensive product and quality testing. Drop tests on flat surfaces or corners (see photo) and dynamic load tests under full load have been successfully completed.
Based on the test results, CimCase cases allow a maximum load of 25 kg, or even up to 30 kg for the trolley.

Extensive drop tests

Inside, the modular system impresses with its ability to adapt effortlessly to different tools, applications and working methods. In addition to predefined configurations, every electronics technician can configure their case entirely according to their own needs.
With sensibly divided compartments, variable inserts and interchangeable modules, the result is a tool case that is as individual as the tasks on the construction site, in the control cabinet or in service use.

- Well-designed storage systems, specially designed for the tough everyday life of the electrical trade
- Clean structure, maximum quality and full adaptability
- Equipped with TSA combination lock, individually configurable via a numerical code
- Particularly robust and shock-resistant polycarbonate ABS case shell

Content individually configurable

↳ CimCase sizes

	CimCase Starter	CimCase Pro	CimCase Pro Trolley
Dimensions, external	470 x 220 x 370 mm	495 x 260 x 420 mm	495 x 300 x 420 mm
Dimensions, inside	435 x 175 x 315 mm	460 x 225 x 355 mm	460 x 265 x 150 mm
Bottom tray, depth	85 mm	105 mm	bis 150 mm
Net weight	4,500 g	5,900 g	7,000 g
Slots	> 60	> 90	> 90
Volume	30 l	38 l	45 l

Details that make the difference

Flexible tool panels

↳ **INNOVATION: flexshell – flexible and robust**
The holsters are easy to remove or rearrange.

↳ **L-BOXX Mini – immediately accessible**
Snap-on boxes create space for small parts and accessories.

↳ **TSA combination lock unit**
Securely protects tools and enables damage-free opening during security checks.

↳ **Deep base tray**
Enormous storage space throughout, with base depths of 85 mm for the CimCase Starter and up to 150 mm for the CimCase Pro Trolley.

↳ **Spirit level safely protected**
The neoprene case protects and secures spirit levels up to 400 mm in length.

↳ **Solid lamella clamping units**
The elastic lamellas hold tools securely and reliably in place.

↳ **Slip pockets with mesh**
Perfect hold, optimal visibility of tools and best protection during transport.

↳ **Screwdriver bags**
Precisely fitting bags – clearly organised, tidy and efficient.

↳ **Mesh pockets – everything in view**
Maximum visibility.
Quick access.

↳ **Laptop bag**
Reliable protection for laptops up to 15“. Safely stored and always at hand.
